EDUCATION

Bachelor of Technology, Computer Science	2022–2026
<i>Dr. A.P.J. Abdul Kalam Technical University, Uttar Pradesh</i>	CGPA: 9.2
Intermediate (Class 12) - PCM	2022
<i>Sheiling House School, Kanpur</i>	Percentage: 96.2%
High School (Class 10)	2020
<i>Sheiling House School, Kanpur</i>	Percentage: 95.6%

PROJECTS

Ecommerce Management App <i>Flask, MariaDB, HTML, CSS, JS, Bootstrap</i> GitHub	Jan 2025 – Current
– Built an e-commerce website using Flask and MariaDB for smooth product and order handling. – Implemented role-based access for Admin, Vendor, and Courier with frontend and backend modules. – Designed and optimized 28 database tables for efficient data management.	
AI Agent using Ollama-Based RAG <i>Django, LangChain, ChromaDB, Ollama</i> GitHub	Dec 2024 – Mar 2025
– Built a document chatbot with Django, LangChain, and ChromaDB for context-specific answers. – Integrated Ollama LLaMA 3.2 with a custom prompt pipeline for precise responses. – Added OCR to extract text from scanned PDFs and images.	
Banking Application using DAO <i>Java, JDBC, Oracle, DAO Pattern</i> GitHub	Sep 2024 – Nov 2024
– Built a Java-based Banking App using DAO for modular and scalable architecture. – Integrated JDBC with Oracle for secure transactions and account management. – Developed in Eclipse IDE with optimized SQL queries.	
Employee Management System <i>Java Servlets, DAO, JDBC, Oracle</i> GitHub	Jan 2024 – Mar 2024
– Built an Employee Management System using Java Servlets and DAO. – Implemented CRUD operations with JDBC and Oracle Database. – Designed a responsive UI with HTML, CSS, and JavaScript.	

EXPERIENCE

Full-Stack Developer – Internship <i>IIT Kanpur (Prof. B.M. Shukla, HOD CSE)</i>	Jan 2025 – Dec 2025
– Built and deployed a full-featured E-commerce dashboard managing 20+ SQL tables with integrated frontend and backend modules for seamless data flow.	
AI/ML Developer – Internship <i>IIT Kanpur (Prof. Navpreet Singh)</i>	Dec 2024 – Mar 2025
– Designed a scalable chatbot with document upload and dynamic querying using Ollama & LangChain.	

TECHNICAL SKILLS

Languages: Python, Java, C, C++

Frameworks & Libraries: Flask, Django, MERN, Pandas, NumPy, LangChain, RAG, Generative AI, Deep Learning

Databases: Oracle, MySQL/MariaDB, MongoDB

Interests: Data Structures, Networking, OOPS, DBMS

Soft Skills: Teamwork, Leadership, Time Management, Problem-Solving, Adaptability

ACHIEVEMENTS

Hands-on experience with **AWS Cloud services** (deployment, storage, database).

Served as Secretary of **Disha Club**, organized quizzes, group discussions, coding contests.

Solved **200+ problems**, ranked in top **20%** with **1600+ rating** on [LeetCode](#).

Achieved **5 stars** in DSA, Python, SQL on [HackerRank](#).

CERTIFICATIONS | [View All](#)

AWS – Cloud Practitioner Essentials

Git and GitHub Essentials – Le Wagon

Machine Learning with Python – freeCodeCamp

AI Agents – HuggingFace

DBMS, OOPS, HTML, CSS, JS – Infosys Springboard
